

3 Issues

 Knowledge

 Learning

 Ability

Knowledge Issues

When a student leaves the world of academics
And enters the world of work
A crisis of transition occurs.

He needs to understand work domain which consists of 3 layers

His knowledge about these 3 layers is
progressively less

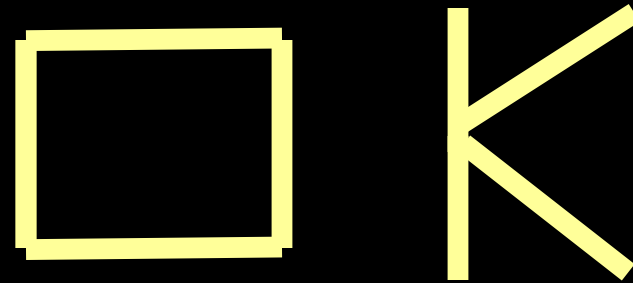

Learning Issues

The knowledge he requires is scattered and comes in bits and pieces

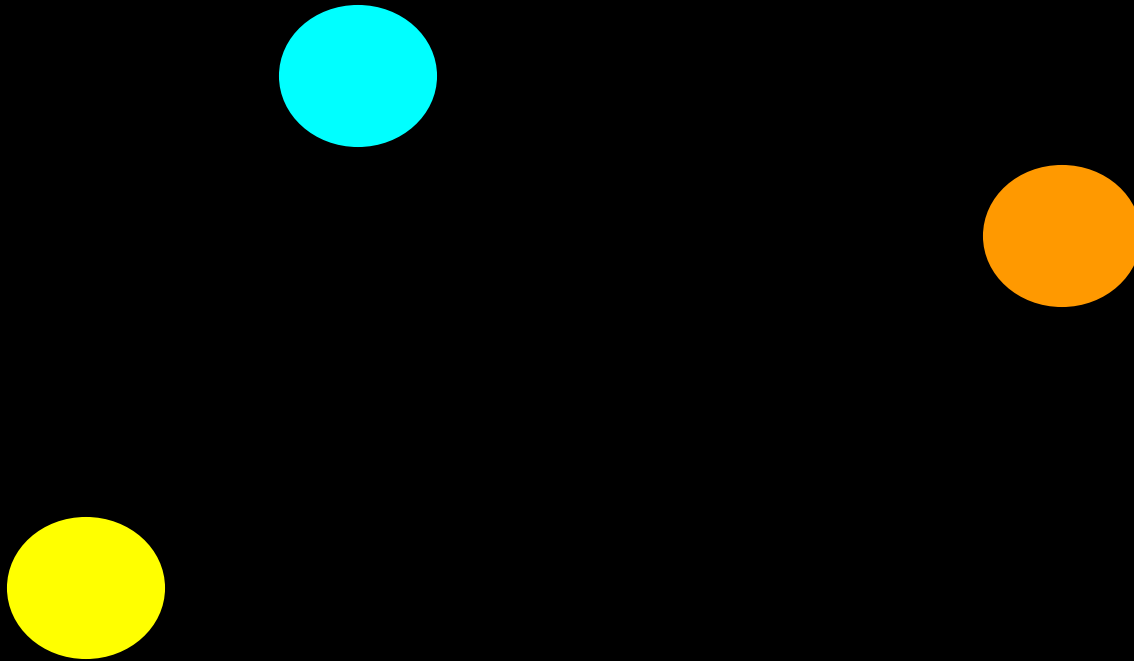

unlike the structured manner in which he is accustomed to learn.

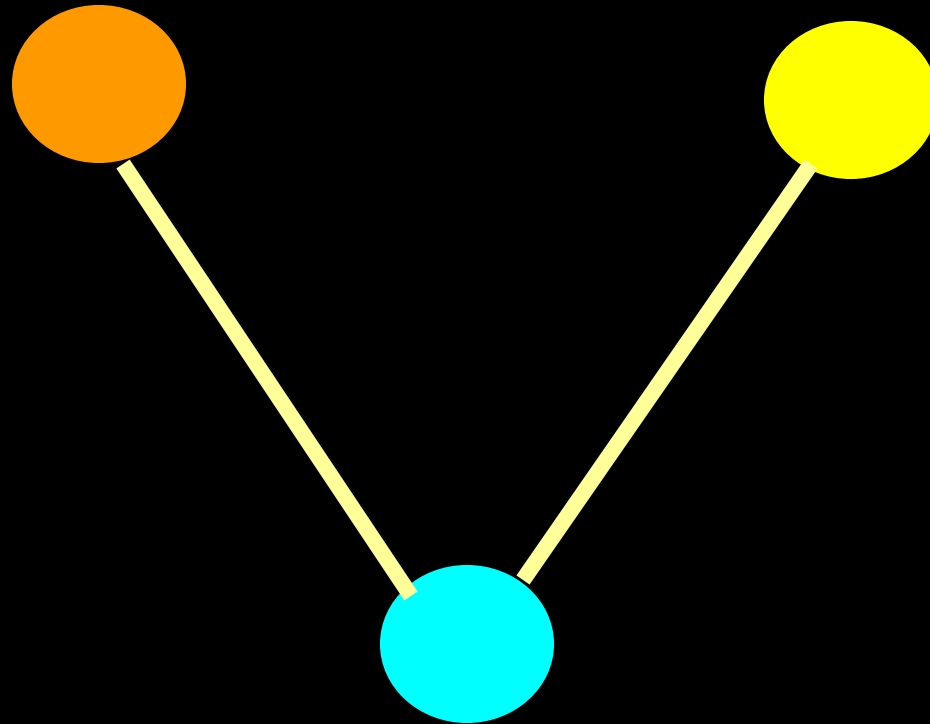

The challenge is Putting things together to make sense

The challenge is relating the apparently related...

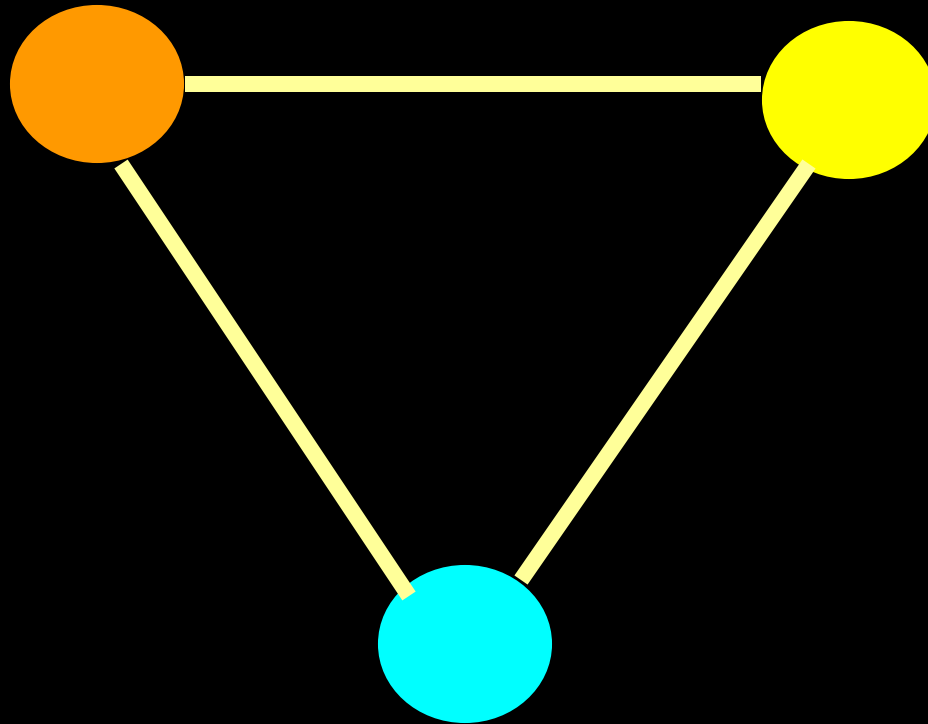

Those who can meet these challenges,

win

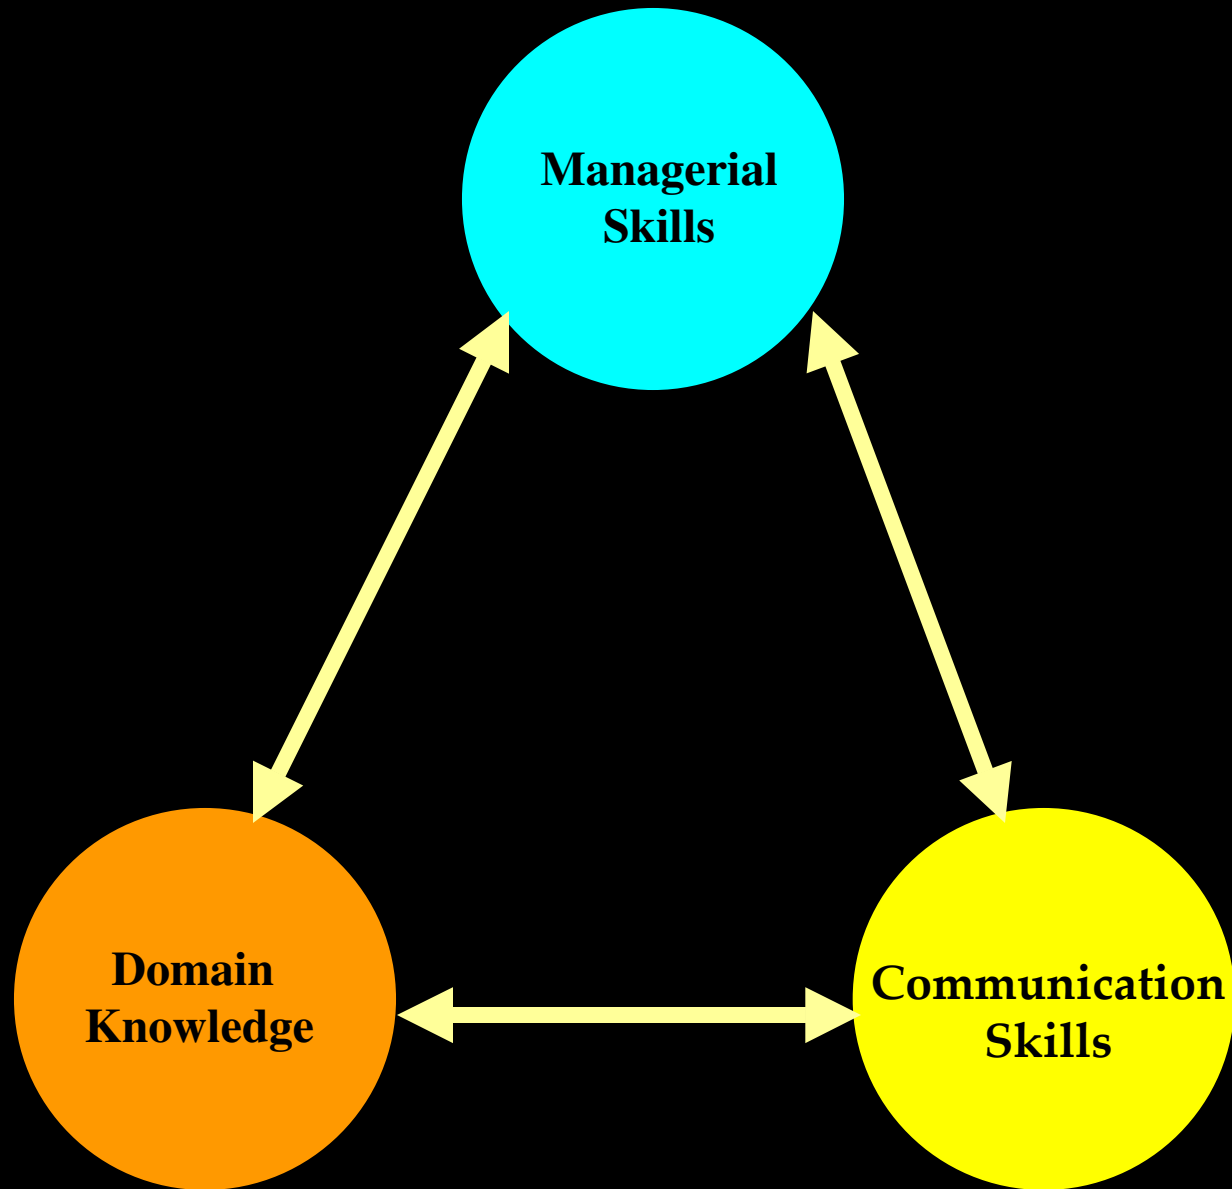

The secret is the ability to connect the disconnected

Connecting the Dots

Ability Issues

Three abilities that need to be brought together...

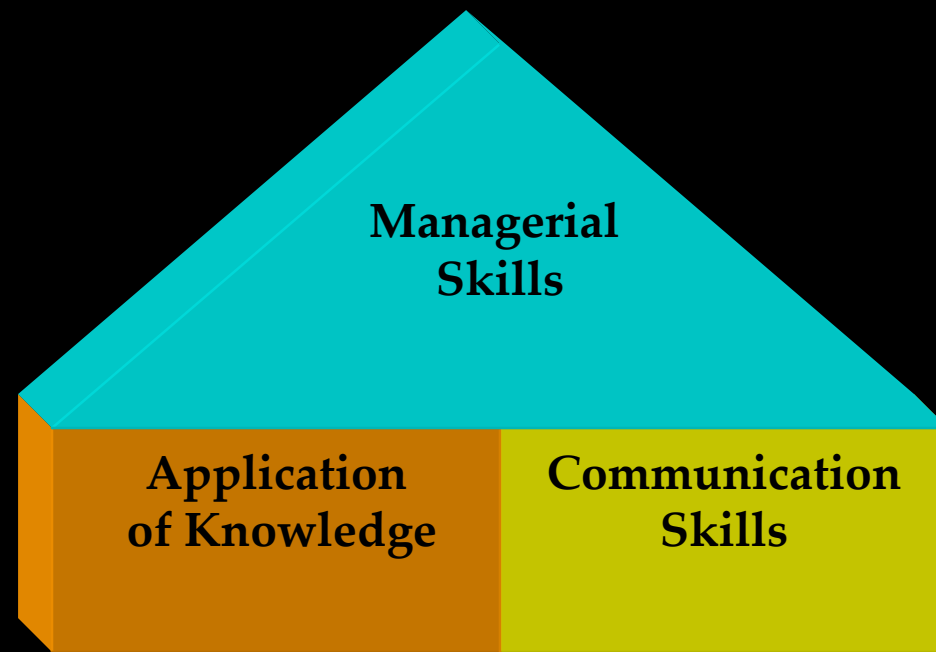

GAP

Managerial Skills

Application of Knowledge

Communication Skills

Is what is lacking today

... and integrated into an edifice

Who will fill the gaps ?
